MEMORANDUM FOR: ASSISTANT DIRECTOR, OFFICE OF SPECIAL OPERATIONS

SUBJECT: Intelligence Support for a High Priority Special Operation

1. The attached document outlines the intelligence needed by OPC for the full implementation of certain of its high priority plans. Fulfillment of these requirements will be difficult and will, in some instances, be impossible. Nevertheless, it is felt that your office should be alerted to these needs and to the high priority attached to them.

2. I request, therefore, that you take such action as may be necessary to assure that these requirements receive the priority attention they deserve. Please give me your judgment as to the extent to which your office can meet these requirements at present and your forecast as to the situation six months from now.

3. Material collected in connection with these requirements should be forwarded to a Special Analysis Unit soon to be established in the State Department's Office of Intelligence Research.

Deputy Director (Plans)
